THINKPAD X300:
WHAT THE WELL-EQUIPPED EXECUTIVE IS CARRYING THIS YEAR.

The new ThinkPad X300 notebook is a breakthrough, full-featured business ultraportable that's vastly more energy-efficient than previous models and forces none of the compromises typical of other ultraportable systems. You often have to sacrifice features, durability or style for portability. But not with the X300. It's solid as a rock, thanks to the patent-pending, carbon-fiber/glass-fiber ThinkPad "roll cage" technology and other advances such as Flash-based Solid State Drives with no moving parts. In terms of style, it's closer to the size of an actual paper notebook than a ThinkPad notebook has ever been, measuring less than ¾th of an inch at its thinnest and starting at just 2.93 lb. Even with the ultra-thin DVD burner it's still an amazing 3.13 lb. And the X300 offers numerous design flourishes including a glossy bottom bezel, select illuminated buttons and — for the first time in the X Series — an integrated camera option and stereo speakers.

The 13.3" widescreen offers the portability of a standard-ratio 12" display, with the usable workspace of a standard 14" model. In addition, the new LED backlit display on the X300 provides a great viewing experience.

To offer extra long battery life and easy portability, the ThinkPad X300 notebook's 3-cell (standard) and optional bay batteries are made of lithium polymer—the new standard for lightweight energy storage. Plus, its new power management features help to save energy, giving you more unplugged working time.

Connectivity options include wireless LAN, UWB (UltraWide Band), Bluetooth® and numerous wireless WAN choices—including one that utilizes native GPS functionality that is built into the X300. [System is designed to support Intel® WiMax when it becomes available later in 2008.]

Lenovo recommends Windows Vista® Business.

THINKPAD X300 SPECIFICATIONS

Processor[2] (speed, L2 cache, FSB)
Intel® Core™2 Duo processor SL7100
(1.2 GHz, 4 MB, 800 MHz)

Preloaded operating system[5]
Genuine Windows Vista® Ultimate 32
Genuine Windows Vista® Business 32
Genuine Windows® XP Professional

Display/resolution
13.3" WXGA+ LED backlight (1440x900, 300nit)

Storage[6]
64 GB Solid State Drive

Memory[7]
Up to 4 GB PC2-5300/667 MHz
(3 GB addressable with 32-bit OS)

Optical drive
Ultrathin DVD Burner

Video graphics
Intel® Graphics Media Accelerator X3100

Available integrated communications
Gigabit Ethernet
Integrated WWAN (GPS available with Verizon WWAN)
Intel® Wireless Wi-Fi Link 4965AGN
(supporting Centrino Pro)
Intel® Wireless Wi-Fi Link 4965AG
(supporting Centrino Pro)
Intel® UltraWide Band (UWB)
Bluetooth[8] 2.0 EDR[10]
WiMax (System is designed to support Intel® WiMax when it becomes available later in 2008.)
Other options such as modem available via optional USB dongle.

Battery life[3]
With 3-cell Li-Polymer (standard): Up to 4.3 hr
With 6-cell Li-Ion extended life: Up to 6.5 hr
With 3-cell Li-Polymer plus 3-cell Li-Polymer Option Bay: Up to 7.5 hr
With 6-cell Li-Ion plus 3-cell Li-Polymer Option Bay: Up to 10 hr

Ports
3 USB, external display; AC adapter; headphone/line-out, microphone/line-in; Gigabit Ethernet (RH-45)

Other features
Integrated camera; integrated digital microphone; stereo speakers; security cable slot

'Greenest' ThinkPad ever

ThinkPad X300 is the first Lenovo notebook rated EPEAT Gold for low energy use and minimal impact on the environment. It also meets the European Union's Reduction of Hazardous Substances standards. And is Energy Star 4.0 qualified.

The X300 uses 25% less energy than previous X Series models. What else makes the ThinkPad X300 so "green"?

- Energy-saving low voltage processors
- LED backlit display - Uses less power than a regular display
- Solid State Storage Drives (no moving parts)
- Mercury-free displays

Lenovo recommends Windows Vista® Business.

ULTRAPORTABLE DURABILITY. THIN, LIGHT AND STRONG.

The new **ThinkPad X300** combines an ultra-thin DVD burner, Solid State Drive and patent-pending, carbon-fiber/glass-fiber ThinkPad "roll cage" technology to create the thinnest, lightest, full-featured notebook in its class. It's more energy-efficient than previous Lenovo notebooks. And since it's a ThinkPad, you can count on quality, reliability and renowned Lenovo services and support.

THINKPAD X300 POPULAR ACCESSORIES:

LENOVO ENHANCED USB PORT REPLICATOR (43R8770): Convenient cable management and connectivity for monitor, headphones/speakers, LAN connection and 5 USB devices.

THINKPAD AND IDEAPAD 90W SLIM AC/DC COMBO ADAPTER (41N8460): Power your notebook everywhere you go. Optional phone/PDA charger and dual charging cable also available.

THINKPAD X300 SERIES BATTERIES
The X300 6-cell Li-ion battery (43R1967) replaces the standard 3-cell for more unplugged time. The optional Bay battery (43R1966) can add even more.

THINKPAD BLUETOOTH LASER MOUSE (41U5008): Get cordless freedom, comfort and control with this easy-to-use, ambidextrous wireless pointing device.

SOLAR POWERPAC RENEWABLE ENERGY SOURCE:
Power the ThinkPad X300 with a portable renewable energy source from Advanced Energy Group. To learn more or to purchase it, go to www.lenovo.com.
